

Christopher O'Grady, M.D.

ANDREWS
ORTHOPAEDIC & SPORTS MEDICINE CENTER

Orthopaedic Surgery & Sports Medicine

Athletes from all walks of life now have access to the latest techniques and surgical equipment in orthopaedic care.

Christopher O'Grady, M.D is a board certified orthopaedic surgeon who treats musculoskeletal conditions resulting from injury, overuse and arthritis. He has a special interest in arthroscopy and has served as an instructor in arthroscopic surgery at multiple national orthopaedic conferences.

Dr. O'Grady earned his undergraduate degree in physics at Georgetown University, and then continued his studies in Washington, D.C. when he earned a seat at the Georgetown University School of Medicine.

After receiving his Doctor of Medicine in 1997, Dr. O'Grady went on to complete his orthopaedic training at the Albert Einstein College of Medicine in Long Island, NY. He completed

his internship and residency in Orthopaedic Surgery at Long Island Jewish Medical Center. After completing his residency, the United States Navy assigned Dr. O'Grady to the Pensacola Naval Hospital where he proudly served as an active duty orthopaedic surgeon for four years.

In 2001, Dr. O'Grady received the American Orthopaedic Association's Zimmer Resident Travel Award for Orthopaedic Research, and secured a grant from the Journal of Bone and Joint Surgery and the Orthopaedic Research and Education Foundation.

Dr. O'Grady has been an associate master instructor at the Orthopaedic Learning Center in Chicago for courses on shoulder instability and on preservation of cartilage in the knee. He has also been an instructor for the Arthroscopy Association of North America (AANA) at many of their meetings focusing on the latest surgical techniques.

Besides being an orthopaedic surgeon, Dr. O'Grady is also a devoted husband and father. He has been married for ten years and has two daughters and a son.

Dr. O'Grady has been involved with Andrews Orthopaedic and Sports Medicine Center and the Andrews Institute from the ground-level, and is currently seeing patients at the new Gulf Breeze facility.
